Saturday, March 2, 2013

Dear Members of the ISC,
Dear Colleagues,
Dear Friends,

We hope 2013 to be a successful year for all scientific events planned on the national and international levels in deep collaboration with ISC. As we know 2013 is weightily year for our ISC. On December 11th-13th the 17th World Congress of the ISC will take place in Bali, a province in the country of Indonesia, which covers a few small neighboring islands as well as the isle of Bali.

We are pleased to draw attention that at present the ISC Bodies are making great effort to prepare the universal scientific program based on the key lectures, oral presentations and computation tools for training, planning and monitoring of the cryoprocurement of the highest quality in the area of modern CRYO. In the ISC General Assembly it will be held the elections and voting of the new ISC executive President and Board of Governors on the democratic principles via secret ballots. Also the host country will be chosen for the next ISC World Congress 2015.

In the next communication we will continue giving further clarification.

Now we are very glad to inform you about the individual personal scientific experience in CRYO by Prof. Dr. Sajio Sumida, Japan, Prof. Dr. John G. Baust, USA, Prof. Dr. Kecheng Xu, China, Prof. Dr. Truls E. Bjerklund Johansen, Norway (see: the official ISC website: www.isc.cryosurgery.at, submenu: ISC History, Individual Events & Scientific Facts).

Further there are next steps in the ISC President's work and activity referring to promotion of the modern cryoscience, cryomedicine, cryosurgery and cryotechnology (see: www.isc.cryosurgery.at, submenu: ISC President Work & Activity).

If you have any comments, tips or suggestions, please send a message to our ISC Headquarters Secretariat any time.

Finally, we cordially wish good health, success and all the best to all of you and your families.

Kind and warm regards,

Presidents and Board of Governors of the ISC

17th ISC Bodies

Legal Election & Voting via Secret Ballots, General Assembly of the 16th World Congress of the ISC
Hofburg, Vienna, Austria, November 2nd, 2011, 11:00-12:15 CET
